- Implemented (SPA) Single Page Applications, state management with **Context API, Redux** to enhance performance and handle API requests
- Implemented **Babel** for transpiling **JSX** code, Managed project dependencies using **NPM**
- Mentoring** Junior team members and fostered a culture of continuous learning and skill development and involved in code reviews
- Implemented authentication and authorization using **JWT tokens**
- Participated in daily stand-ups, sprint planning, and retrospective meetings
- Utilized **GIT** version control, **GitHub** with and collaborated with team members using collaborative workflows
- Handled **JSON** data and Developed **RESTful APIs** for efficient communication between server and client-side applications, ensuring seamless data exchange
- Employed **MUI v5** and **Bootstrap, Tailwind CSS** for pre-built **React components**, saving development time and ensuring consistent styling
- Translate design mock-ups from tools like **Figma** into functional web interfaces using **HTML, CSS, and JavaScript**

## EDUCATION

2016 - 2020

Anantapur

Bachelor Of Technology in Computer Science

JNTUA

## PROJECTS

### Healthcare Screening

Prodapt solutions pvt ltd

- Managed the development of a comprehensive healthcare screening app, impacting over {1,000} ASHA workers and doctors.
- Enabled identification and management of chronic diseases such as diabetes for {500+} patients by analyzing vital data.

### FURNITURE LAND

Prodapt solutions pvt ltd

- Spearheaded the development of 'Furniture Land,' an ambitious e-commerce platform enabling seamless exploration, purchase, and customization of diverse furniture for residential and commercial spaces.
- Designed a visually captivating and user-friendly interface, ensuring a comprehensive online experience for customers to meet all furniture needs.

### Product Catalog

Prodapt solutions pvt ltd

- Increased customer retention by {15%} in the Banking/Finance sector by delivering personalized product recommendations.

## KEY ACHIEVEMENTS

**Reduced Load Times**

Streamlined processes and optimized code to significantly decrease application load times, enhancing user experience and overall system performance.

**Boosted User Engagement**

Implemented targeted strategies and innovative features that increased user interaction and retention, driving higher engagement rates and satisfaction.

## PASSIONS

**Web Application Development**

Passionate about creating efficient and scalable web applications that enhance user experience.

**Continuous Learning**

Constantly pursuing new technologies and frameworks to stay at the forefront of the web development industry.
